December 6, 1999

To whom it may concern:

I have personally known Larry Olsen for approximately four years. Larry was the General Contractor on my present house at 1305 Fosse Rd. in Marion, Illinois. I found Larry's workmanship and follow-thru on small details to be excellent. He was great to work with and built a sound home. During the appraisal process, John Harvel, the local appraiser made several very positive comments regarding the quality of construction and workmanship of the house. I felt this was a huge complement to Larry.

I have also delt with Larry on a professional basis. As a Bank President in Marion, I had the opportunity to work with Larry on home construction loans for Bank customers. Larry handled himself in a very professional manner and was always on schedule. He was very good with the necessary paperwork and documentation on these projects. In fact, he is one of the best General Contractors I've seen in having all of the lien wavers in hand when needed. My Bank customer was very satisfied with Larry's work and the way Larry worked with them when they wanted changes.

I not only would highly recommend Larry Olsen as a General Contractor, I have recommended him on several home construction jobs and would recommend him highly in the construction field.

Sincerely,

A handwritten signature in black ink, appearing to read "RD", written over the word "Sincerely,".
