*It is with great pleasure we write this letter of recommendation for Larry Olson. For us, it was a challenge deciding on a builder. The three most important qualifications in selecting a builder for us were honesty, dependability, and quality, and these days, that is not easy to find. That is exactly why we chose Larry.*

*We had always heard that if your marriage could survive building a house, it could survive anything! After our experience with Larry, the myth has been dispelled. The process was very smooth and Larry was always professional.*

*This was the first home we had built and although we thought we knew exactly what we wanted, there were a lot of decisions to make and Larry was there explaining everything to us, step-by-step.*

*If we were to ever build another home, it would be an obvious choice as to who would build it for us - Larry Olson.*

*If you would like stop by our home and check out Larry's work, please give us a call. It is a pleasure to show our home-we are very proud of it!*

*Sincerely,*

*Scott & Crysta Wilson*
